Hired laborers clear the fields of the “Arms of Love Children’s Home” site. Please continue to pray for the grant from World Orphans (to build the actual orphanage), and for the additional funds we will need to raise.

Pictured left is the large drill used to bore the well for “Arms of Love.” Praise the Lord the well is now finished and fresh water was only a few hundred feet in the ground. This project was less expensive than we anticipated because of this. God is good! We are making progress!
